SWOC Analysis

Strengths:

- Well-equipped Laboratory.
- Hard working dedicated faculty and excellent support from Management
- We are the only Co-education institution providing B.Tech. and M. Tech. Cosmetic Technology degree in Nagpur region
- Excellent Employment opportunities in Cosmetic industries

Weaknesses:

- Slow economic and industrial growth of Nagpur region so students need to migrate.
- The misconception about the course is to make a career in beauty parlour rather than Cosmetic industries.

SWOC

Opportunities:

- Linkages with industries for advancement of students
- To explore hidden talent of students in various activities for skill development
- Motivation for NPTEL, Swayam and MOOC certificates
- Encouragement to students for Research activities

Challenges:

- Declined interest in admission due to lack of awareness about program specially in boys, so improvement in admission process for boys.
- Regular upgradation of syllabus in accordance with fast growing Cosmetic Industry.
- To grant permission from RTM Nagpur University for recognized Research centre for Ph.D. in Cosmetic Technology

Future Plans

- To avail grants from various Government and Research funding agencies for Research Projects
- To arrange more Conferences and Seminars for students.
- To arrange more programs for improving students entrepreneurial, personality and soft skills.
- To make Exclusively high and sophisticated instruments available to interested students for skin and hair testing.
- To increase number of MOU with industry to bridge the gap between industry and academia.
- To increase the number of research publications of students in reputed journals and books.
